

# THE PREVENTION ROUNDTABLE SERIES

Outside The Classroom invites you to participate in a day of new insights from recent research and rigorous discussion with peers and experts from the field.

## WHEN

Thursday, May 6, 2010

## WHERE

University of North Carolina at Greensboro

## AGENDA

**9:30 AM**

Networking and Registration

**10:00 AM – 2:30 PM** (lunch included)

**State of the Union presentation** on the latest critical data, themes, trends, and issues in the field of alcohol prevention.

**Using Alcohol-Free Options to Promote a Healthy Campus Environment:** This presentation examines the effectiveness of alcohol-free options in reducing high-risk drinking, addresses common challenges, and identifies best practices for implementing this strategy.

**The Growing Danger of Pre-Gaming:** Our investigation attempts to better understand the prevalence, correlates, and demographic variation of pre-gaming on college campuses.

## DISCUSSION LEADERS

**Brandon Busted**, Founder, Outside The Classroom

**Kirby Salerno**, Senior Director, Partner Development, Outside The Classroom

**David Wyrick, PhD**, Associate Professor, University of North Carolina at Greensboro; President, Prevention Strategies

## REGISTRATION

<http://www.outsidetheclassroom.com/roundtable.aspx>

or email Megan Palame at:

[palame@outsidetheclassroom.com](mailto:palame@outsidetheclassroom.com)

## Attendees can expect to learn...

- What the national data tell us about trends in student abstinence from alcohol and how to harness the power of the “responsible majority” on your campus
- How alcohol-free options compare to other campus prevention strategies and what types of alcohol-free options (case studies) are achieving measurable results at campuses across the country
- What evidence-based prevention strategies are being utilized by campuses to address pre-gaming and why those strategies need to be segmented based on gender and other demographics

At Outside The Classroom, we have the privilege of partnering with hundreds of colleges and universities across the country each year on a range of prevention activities.

These relationships and experiences afford us a unique perspective on the field which provides opportunities to discover, analyze and share ideas as well as spark stimulating discussion with institutions who share our commitment to effective prevention.

Guests are welcome to share this invitation with peers on campus who might benefit from attending.
